

Sanjiv Kumar

PH.D. BIOTECHNOLOGY

☎ +46 076 057 62 08 | ✉ sanjiv@kth.se | 📠 0000-0003-3514-8999 | 📱 [sanjiv856](#) | 🌐 [sanjiv-kumar-b246b44a](#)

Molecular Biology, Biotechnology, Protein Biochemistry, Bacteriology, Bioinformatics

Research Interests

Highly efficient molecular biologist, with focus on Protein Biochemistry and Infection Biology • Adept at *in-silico* characterization of proteins (phylogenetic analysis, homology modeling, drug discovery, molecular docking and simulations etc.) • Knowledge and experience of Genomics, metagenomics and RNA-Seq data analyses tools and software • Efficient at the techniques in the context of drug discovery against infectious pathogens

Technical Skills

Molecular biology techniques, Microbiology techniques, Protein biochemistry, Protein crystallography, Drug discovery, Bioinformatics (Pharmaceutical Bioinformatics, Genomic and Metagenomics data analysis), R[Intermediate], Python[Intermediate], bash. Adept user of UNIX.

Research Experience

Division of Glycoscience, School of Biotechnology, KTH Royal Institute of Technology

Stockholm, Sweden

Researcher, Oomycetes Biology

August 2017 - Present

As a researcher with the Vaibhav Srivastava's Lab, I am responsible for the development and implementation of research strategy towards novel anti-infectives against Oomycete pathogens. Including following roles:

- Expression, purification and biochemical characterization of proteins involved in cell-wall biogenesis from Oomycete pathogens, Horizon 2020 project
- Cell wall linkage analysis of various Oomycete pathogens, Horizon 2020 project
- Identification and characterization of protein targets and inhibitors important for disease control strategies against *Saprolegnia parasitica* and their *in-vitro* assessment.

Justin Radolf Lab at University of Connecticut Health Center

Connecticut, USA

Post-Doctoral Fellow, Infectious Biology

April 2015 - August 2017

As a Post-Doctoral Fellow at UConn Health, I was involved with the characterization of rare Outer Membrane Proteins (OMPs) in *Treponema pallidum*. Including following roles:

- Consensus computational framework to identify rare OMPs in *T. pallidum*
- Biophysical and experimental characterization of BAM – complex in *T. pallidum*
- Identification and analysis of sequence variations in *T. pallidum* from clinical samples

Vineet Sharma Lab at Indian Institute of Science Education and Research, Bhopal (IISER-B)

Bhopal, India

Post-Doctoral Fellow, Metagenomics and Systems Biology

December 2013 - February 2015

As a Post-Doctoral Fellow at MetaBioSys lab, I was responsible for the Metagenomic analysis of human gut and polluted river microbiomes. Some of the roles included:

- Reconstruction of bacterial and viral genomes from multiple human gut metagenomes
- Development of prediction tool for peptidoglycan hydrolases from bacterial genomes
- De novo assembly of genomes from human gut metagenomic data

S. Ramachandran Lab, Institute of Genomics and Integrative Biology

New Delhi, India

Junior Research Fellow, Genomics and Integrative Biology

December 2007 - February 2015

As a Junior Research Fellow, I was responsible for the identification of novel adhesins from *Mycobacterium tuberculosis*, including • Identification of novel potential adhesins of *M. tuberculosis* H37RV and their experimental validation • Characterization of a novel N-acetylmuramoyl-L-alanine amidase Rv3717 from *M. tuberculosis* H37Rv

Patent Filed

- Vaibhav Srivastava, **Sanjiv Kumar**, and Vincent Bulone (2020). "Treatment of saprolegniasis." International Patent Application No.PCT/SE2020/050468, Filing date: May 7, 2020. [Link]

Awards

KTH Innovation Challenge Tech for the Global Goals award of 50000 SEK, jointly shared with Vaibhav Srivastava, awarded by KTH Royal Institute of Technology, Stockholm, Sweden (May 2018) • Senior Research Fellowship from CSIR, New Delhi, India (March 2009 – February 2012) • Junior Research Fellowship from CSIR, New Delhi, India, (March 2007 – February 2009) • Defense Scholarship during graduation (B. V. Sc. & A. H.) (1998-2003)

Education

Institute of Genomics and Integrative Biology (CSIR-IGIB)

Ph.D. in Biotechnology

Delhi, India

2014

Lala Lajpat Rai University of Veterinary and Animal Sciences

Masters in Veterinary Sciences (M.V.Sc.), Veterinary Microbiology

Haryana, India

2007

Veterinary College, KVAFS University

Bachelor of Veterinary Sciences & Animal Husbandry (B.V.Sc. & A.H.)

Bangalore, Karnataka, India

2004

Training

Pharmaceutical Bioinformatics, Grade: **VG**, Uppsala University, *Uppsala, Sweden*, Aug. 31 - Nov. 01, 2020 [Credential] • **Applied Pharmaceutical Structural Bioinformatics**, Grade: **VG**, Uppsala University, *Uppsala, Sweden*, Aug. 31 - Oct. 15, 2020 [Credential] • **RNA-Seq Data Analysis**, Workshop by National Bioinformatics Infrastructure Sweden (**NBIS**) and **SciLifeLab**, *Uppsala, Sweden*, May 13 - 15, 2019 [Credential].

Independent Coursework

Intro to Machine Learning, Kaggle, Mar. 2021 [Credential] • **Python**, Kaggle, Mar. 2021 [Credential] • **Automate the Boring Stuff with Python Programming**, Udemy, Jun. 2019 [Credential] • **Python Programming Bootcamp**, Udemy, Jun. 2019 [Credential] • **Python for Absolute Beginners**, Udemy, Jun. 2019 [Credential] • **Introduction to Python**, DataCamp, April 2019 [Credential] • **Introduction to R Course**, DataCamp, Nov. 2017 [Credential].

Publications (Since 2018)

For a complete list of publications please see *My Google Scholar Profile*.

First Author Peer-Reviewed Publications – **6** • Total Peer-Reviewed Publications – **19** • Popular Science Articles – **1**.
